

DAT Solutions Adds 5 TMS Integration Partners

Portland, OR – September [DATE] – DAT Solutions announces five additional partnerships with transportation management software (TMS) providers that have integrated DAT products into their applications. Integration enables TMS users to deploy [DAT load boards](#) and freight rate data within the TMS environment.

The [TMS providers](#) that integrate with DAT products are among the most popular transportation management systems for freight brokers, carriers and shippers, including DAT's own Keypoint® broker TMS.

“Transportation and logistics professionals rely on their TMS systems all day, every day, and DAT products are integrated seamlessly into that experience,” said Neerav Shah, VP product management at DAT. “Over the past ten years, DAT has been expanding our integration program to include as many TMS partner companies as possible, to improve the efficiency and productivity of our mutual customers.”

DAT's newest TMS integration partners include [Efreightsolutions](#) and [Cloud Logistics](#), which now include freight rate data on 65,000 point-to-point lanes from DAT RateView™. [Solfinity](#), includes full access to DAT load boards, enabling TMS users to post loads and search for trucks. Two more TMS providers, [Revenova, LLC](#) and [Primus Intellectual Solutions](#), now offer access to both DAT services: freight rates and load boards.
